Dear Friend,

As I told you when I sent you the regulations and the entry-forms, I have the pleasure of enclosing you the map of both stages of the XXVth. Edition of the "RALLYE DE ESPAÑA - RALLYE INTERNACIONAL DEL R.A.C.E.", with the design of the run and designation of the speed-sections.

This is completed with the program and a few details of each course.

Due to some narrow and long speed-sections, the Organization Committee has decided to place marshalls along those sections, so that we may be able to verify that the vehicles which are reached by others will let them pass.

When you come to practice and you formalize the entry-form, the Road-Book will be given to you.

Hoping to see you in the Rallye and looking forward to hear further from you.

Yours sincerely,

Fdo. Fernando SANTAMARIA  
Director Técnico del Circuito del Jarama
